Academic Policies

As stated in the Graduate Student Academic Integrity Policy,
"All members of the University community share the responsibility for the academic standards and reputation of the University. When students submit work for academic evaluation and credit, they imply that they are the sole authors of the work. Clear and careful attribution of the words and ideas of others is an essential part of academic scholarship. Academic honesty is a cornerstone of the development and acquisition of knowledge and is a condition of continued membership in the University community."
Furthermore,
"Academic dishonesty, including plagiarism and cheating, is ultimately destructive of the values of the University. Scholarly integrity is required of all members of the University. Engaging in any form of academic dishonesty or misconduct in order to obtain academic credit or advantage of any kind is an offence under this policy."
Please review the Graduate Student Academic Integrity Policy section of the Graduate Calendar for definitions, penalties, and procedures for dealing with academic dishonesty.

As described in the Graduate Student Appeals Procedure, students may appeal grade on "assignments and examinations associated with graded courses that are part of the requirements of a degree" and other "examinations or evaluations associated with major degree requirements such as comprehensive or

candidacy examinations, evaluation of major research or internship papers and theses defences." Students should first attempt to resolve a matter informally with the initial decision-maker(s). Where informal resolution is not possible, a student has the right to make a formal appeal. The appeal process is described in the Graduate Student Appeals Procedure section of the Graduate Calendar.
