## Section 1—Overview

---

### 1.01 Purpose of Statement

This Statement of Investment Policies and Procedures (the “Policy”) provides the framework for the investment of the assets in respect of The Contributory Pension Plan for Employees Represented by Ontario Public Sector Employees Union (OPSEU) Local 365 and Exempt Administrative Staff of Trent University, registration number 0310409 (the “Plan”);

The administrator of the Plan is the Trent University Board of Governors (the “Board”). The Board designates a senior administrative official of Trent University (the “University”) who is responsible to the Board of Governors for the Plan.

This Policy is based on the “prudent person portfolio approach” to ensure the prudent investment and administration of the assets of the Plan within the parameters set out in the *Pension Benefits Act, (Ontario)* and the Regulations thereunder.

### 1.02 Plan Background and Profiles

This pension plan was established as a defined benefit pension plan effective July 1, 1969 and restated July 1, 1998. Full-time staff (OPSEU and exempt) of the University are required to become members of the Plan upon their date of hire.

On January 1, 2025, the Plan was converted to the University Pension Plan (UPP), a jointly sponsored multi-employer pension plan. The liabilities of the Plan were transferred to the UPP on the conversion date. January 1, 2025 was the effective date of the commencement of accrual of the benefits and contributions under the UPP, and the UPP assumed responsibility for administering and paying UPP benefits.

The *Pension Benefits Act (Ontario)* provides that the maximum amount of assets that may be transferred from the Plan to the UPP on conversion is an amount equal to the Plan’s wind-up liabilities. As a result of strong investment returns and an increase in long-term interest rates, the Plan had an estimated wind-up surplus on conversion. Based on conservative estimates of the wind-up liabilities, the University transferred \$190 million in assets of the Plan to the UPP on January 1, 2025 (the Transfer Amount), and the remaining assets (an estimate of the Wind-up surplus) were retained in the Plan.

The actual amount of the wind-up liabilities on the conversion date will be confirmed in the Transfer Report of the Plan prepared by the Plan actuary and filed with the Financial Services Regulatory Authority of Ontario (FSRA) by the UPP Board of Trustees under Regulation 311/15 of the *Pension Benefits Act (Ontario)*. Within 30 days of filing the Transfer Report with FSRA, a reconciliation of the Wind-up Surplus and the Transfer Amount will be performed and a “true-up” transfer to/from the UPP from/to the Plan will be completed to finalize the transfer of assets from the Plan to the UPP.

**1.03 Any remaining assets in the Plan following the reconciliation and true-up will be held in the Plan until distributed in accordance with the terms of the Plan, which provides for a distribution of 50% to the members of the Plan and 50% to the University. An equitable allocation of the members' share of the wind-up surplus will be determined once the amount of the wind-up surplus is confirmed. The distribution to the University of Trent's share requires FSRA approval. Objective of the Plan**

The objective of the Plan is to preserve the value of assets while waiting to confirm the wind-up liability and complete the distribution of the wind-up surplus.

#### **1.04 Investment and Risk Philosophy**

The Plan's investment policy has been designed to preserve the value of assets while waiting to confirm the wind-up liability and complete the distribution of the wind-up surplus.

In order to achieve the investment goal, the University attempts to reduce the overall level of risk by investing in short term and cash equivalent investments.

#### **1.05 Administration**

The Trent University Board of Governors (the "Board") is the legal administrator of the Plan. The Board has appointed an Audit and Investment Committee (the "Committee") to whom the Board has delegated responsibilities related to the administration of the Plan. In addition, there is a pension subcommittee of the Management/Union joint committees for the Plan which the Board consults on certain matters as set out in the Plan.

## **Section 2—Asset Mix and Diversification Policy**

---

### **2.01 Portfolio Return Expectations**

The investment manager(s) appointed by the Committee to manage the investment of part or all of the assets of the Plan (the "Investment Manager") is expected to achieve the objective of the Plan which is to preserve the value of assets while waiting to confirm the wind-up liability and complete the distribution of the wind-up surplus.

### **2.02 Expected Volatility**

The volatility of the Plan is directly related to its asset mix reflected in Section 2.03 (Asset Mix) below. Since the Investment Manager does not have the authority to make any type of leveraged investment on behalf of the Plan, the volatility should be similar to the volatility of the Benchmark Portfolio set out in Section 4.02 (Performance Measurement).

### **2.03 Asset Mix**

Taking into consideration the investment and risk philosophy of the Plan, the following asset mixes (market value) have been established:

<b>Assets</b>	<b>Minimum %</b>	<b>Benchmark %</b>	<b>Maximum %</b>
Short Term Investments and Cash	N/A	100	N/A
<b>Total:</b>	<b>N/A</b>	<b>100.0</b>	<b>N/A</b>

Morningstar DBRS	A	R-1 (low)
Moody's Investors Services	A2	P-3

## Section 3—Permitted and Prohibited Investments

#### (c) Pooled Funds

While the guidelines in this Policy are intended to guide the management of the Funds, it is recognized that, where pooled funds are held, there may be instances where there is a conflict between this policy and the investment policy of a pooled fund. In that case, the pooled fund policy shall dominate, subject to the compliance reporting procedures outlined in Section 4.03 and Appendix A. However, the Investment Manager is expected to advise the Committee in the event of any material

discrepancies between the above guidelines and the pooled fund's own investment guidelines. In addition, the Investment Manager will ensure that the Committee has received a copy of the most recent version of the pooled fund policy and of any amendments made to the pooled fund policy.

#### **(d) Mutual Funds**

Investment in mutual funds is permissible subject to the prior approval of the Committee. While the guidelines in this Policy are intended to guide the management of the Funds, it is recognized that, where mutual funds are held, there may be instances where there is a conflict between this Policy and the investment policy or prospectus of the mutual fund. In that case, the mutual fund policy shall dominate, subject to the compliance reporting procedures outlined in Section 4.03 and Appendix A. The Investment Manager is expected to advise the Committee in the event of any material discrepancies between the above guidelines and the pooled fund's own investment guidelines. In addition, the Investment Manager will ensure that the Committee has received a copy of the most recent version of the mutual fund policy and of any amendments made to the mutual fund policy.

#### **(e) Derivatives**

The Fund may invest derivatives of equity, fixed-income or currency-related investments, futures and/or forward contracts, swaps, options, warrants, depository receipts, rights or other similar instruments are all permitted for the purposes of exposure and/or hedging. The exposure should be consistent with the Plan's investment objectives and guidelines laid out in this document.

Any derivative will be measured against its underlying exposure. Derivatives cannot be used for speculative purposes or to leverage the portfolio. Similarly, the Fund may indirectly invest in derivatives through its investment in pooled or mutual funds, if the objectives and strategies of these funds permit.

### **3.03 Minimum Quality Requirements**

#### **(a) Quality Standards**

Within the investment restrictions for individual portfolios, all portfolios may hold a prudently diversified exposure to the intended market.

- (i) The minimum quality standard for individual short term investments is 'R-1' or equivalent as rated by at least one of the three recognized bond rating agencies, at the time of purchase.
- (ii) All investments shall be reasonably liquid.

- (ii) Standard and Poor's; and
- (iii) Moody's Investors Services

### **(c) Derivatives**

The Fund may indirectly invest in derivatives through its investment in pooled or mutual funds, if the objectives and strategies of these funds permit.

For both direct and indirect utilization of derivatives, the exposure to the derivatives must be subject to limits based on the intended use and strategies for derivatives, and the risks associated with them. Investment in derivatives must also comply with all applicable statutory provisions and regulations, including the Prudent Person Rule, and must be invested and managed in accordance with regulatory derivatives best practices.

### **(d) Environmental, Social and Governance Factors**

"ESG" refers to the environmental, social and governance factors relevant to an investment that may have a financial impact on that investment.

The Board's primary objective is to ensure an appropriate balance between the need to preserve the value of assets while waiting to confirm the windup liability and complete the distribution of the windup surplus and to optimize short-term return on investment.

Alongside this primary objective, the University is committed to being actively engaged in contributing to climate change abatement and environmental sustainability, and to being responsive to select donor interest in socially responsible investment options. Investment managers are reviewed with ESG principles in mind. The intention is to see that investment managers do incorporate ESG considerations into the investment decision making process for their funds, alongside the achievement of the primary objectives described above.

The Committee believes that consideration of ESG factors into the investment process and manager selection is in line with the core beliefs and key areas that are of importance to the University.

## **3.04 Maximum Quantity Restrictions**

### **(a) Total Fund Level**

The administrator of the Plan shall not directly or indirectly lend or invest moneys equal to more than 10% of the total market value of the Plan's

For greater certainty, the Investment Manager is not permitted to leverage the assets of the Funds. The use of derivative securities is only permitted for the uses described in this Policy. Purchase or sale of any of these instruments cannot expose the Funds to any more risk than the cash market.

The Investment Manager shall not:

- (a) Invest in companies for the purpose of managing them;
- (b) Purchase securities on margin or engage in short sales;

Make any investment not specifically permitted by this Policy.

### **3.07 Borrowing**

The Plan shall not borrow money, except to cover short-term contingency and the borrowing is for a period that does not exceed ninety days, subject to the *Pension Benefits Act (Ontario)* and the *Income Tax Act*, as applicable, and only with the written permission of the Board.

The Committee assists the Board in fulfilling its fiduciary duties and provides direction to the senior University official with respect to the Funds. The Committee may also hire or terminate the Investment Manager(s) at its discretion.

The Committee has delegated certain functions relating to the management and administration of the Fund to external organizations, as outlined below:

#### (a) Investment Manager

- (v) Provide quarterly a performance report in a form acceptable to the Committee. The performance should be provided for the total portfolio managed by the Investment Manager and for each major asset class; and,

## **4.03 Compliance Reporting by the Investment Manager**

The Investment Manager is required to complete and deliver a compliance report to the Committee each quarter (a sample is included in Appendix A). The compliance report will indicate whether or not the Investment Manager was in compliance with this Policy during the quarter.

In the event that an Investment Manager is not in compliance with this Policy, the Investment Manager is required to advise the Committee immediately, detail the nature of the non-compliance and recommend an appropriate course of action to remedy the situation.

The Plan may invest in pooled funds with separate investment policies. Should a conflict arise between those investment policies and this Policy, the Investment Manager is required to advise the Committee as per section 3.02(e).

The Plan may invest in mutual funds with separate fund prospectuses. In this case, at inception the Investment Manager is required to provide the prospectus to the Committee and identify any areas in which the investment policy of the mutual

## Section 5—Administration

---

### 5.01 Conflicts of Interest

#### (a) Responsibilities

This standard applies to members of the Board and its Committee, members of all other committees involved in supporting the work of the Plan, and all administrators and agents employed by the University (e.g. Investment Manager, trustees, actuaries, consultants) to support the work of the Plan, in the execution of their responsibilities under the *Pension Benefits Act (Ontario)* if applicable and this Policy (the “Affected Persons”).

An “agent” is defined to mean an organization, association or individual, as well as its employees who are retained by the Committee to provide specific services with respect to the investment, administration and management of the assets of the Funds.

#### (b) Disclosure

In the execution of their duties, the Affected Persons shall disclose any material conflict of interest relating to them, or any material ownership of securities, which could impair their ability to render unbiased advice, or to make unbiased decisions, affecting the administration of the Funds’ assets.

Further, it is expected that no Affected Person shall make any personal financial gain (direct or indirect) because of his or her fiduciary position. However, normal and reasonable fees and expenses incurred in the discharge of their responsibilities are permitted if documented and approved by the University.

No Affected Person shall accept a gift or gratuity or other personal favour, other than one of nominal value, from a person with whom the employee deals in the course of performance of his or her duties and responsibilities for the Funds.

It is incumbent on any Affected Person who believes that he or she may have a conflict of interest, or who is aware of any conflict of interest, to disclose full details of the situation to the attention of the Committee immediately. The Committee, in turn, will decide what action is appropriate under the circumstances but, at a minimum, will table the matter at the next regular meeting of the Committee.

An Affected Person who has or is required to make a disclosure as contemplated in this Policy shall normally withdraw from the meeting until the issue causing the conflict has been dealt with. He or she may be present at, or take part in the discussions on the issue causing the conflict only if the voting members of the Committee unanimously agree that circumstances warrant such participation. Regardless of the position taken by the

Committee, an individual member may still elect to suspend all activities relating to the conflict. In no case is a member permitted to vote on any resolution to approve a contract or investment transaction in which he or she has a material interest.

Notwithstanding the above, the parties listed above may, instead of adhering to this Conflict of Interest Policy, adhere to an alternate Conflict of Interest Policy that the University and the Board deem reasonable.

## 5.02 Related Party Transactions

The University, on behalf of the Plan may not enter into a transaction with a related party unless:

- a) The transaction is made for the operation or administration of the Plan under terms and conditions that are not less favourable to the Plan than market terms and conditions and such transaction does not involve the making of loans to, or investments in, the related party; or
- b) The combined value of all transactions with the same related party is nominal or the transaction(s) is immaterial to the Plan.

For the purposes of this section, only the market value of the combined assets of the Plan shall be used as the criteria to determine whether a transaction is nominal or immaterial to the Plan. Transactions less than 0.5% of the combined market value of the assets of the Plan are considered nominal.

In addition, the prohibition to entering into transactions with a related party does not apply to investments:

- a) In an investment fund (as that term is defined in Schedule III to the *Pension Benefits Standards Regulations, 1985 (Canada)*) or segregated fund in which investors other than the Administrator and its affiliates may invest and that complies with the requirements set out in Sections 9 and 11 of Schedule III to the *Pension Benefits Standards Regulations, 1985 (Canada)*.
- b) In an unallocated general fund of a person authorized to carry on a life insurance business in Canada;
- c) In securities issued or fully guaranteed by the Government of Canada, the government of a province, or an agency of either one of them;
- d) In a fund composed of mortgage-backed securities that are fully guaranteed by the Government of Canada, the government of a province, or an agency of either one of them;

- e) In a fund that replicates the composition of a widely recognized index of a broad class of securities traded at a marketplace (as that term is defined in the *Pension Benefits Standards Regulations, 1985 (Canada)*); and
- f) That involve the purchase of a contract or agreement in respect of which the return is based on performance of a widely recognized index of a broad class of securities traded at a marketplace (as that term is defined in the *Pension Benefits Standards Regulations, 1985 (Canada)*).

A “related party” in respect of the Plan means:

- a) A person who is the administrator of the Plan including any officer, director or employee of the administrator. It also includes the Managers and their employees, a union representing employees of the employer, a member of the Plan, a spouse or child of the persons named previously, or a corporation that is directly or indirectly controlled by the persons named previously, among others. Related party does not include government or a government agency, or a bank, trust company or other financial institution that holds the assets of the Plan, where that person is not the administrator of the Plan;
- b) An officer, director or employee of one of the administrators of the Retirement Program;
- c) A person responsible for holding or investing the assets of the Plan, or any officer, director or employee thereof;
- d) An association or union representing employees of the University, or an officer or employee thereof;
- e) A member of the Plan;
- f) The spouse or child of any person referred to in any of paragraphs (a) to (e);
- g) An affiliate of the University;
- h) A corporation that is directly or indirectly controlled by a person referred to in any of paragraphs (a) to (f),
- i) An entity in which a person referred to in paragraph (a), (b), or (e), or the spouse or a child of such a person, has a substantial investment, and/or
- j) An entity that has made a substantial investment in the University.

### **5.03 Appointing and Monitoring the Investment Manager**

In accordance with its terms of reference, the Committee is responsible for the appointment of the Investment Manager and is not required to obtain the approval of the Board before appointing any Investment Manager. The committee will monitor and review the:

- (a) Assets and net cash flow of the Plan;
- (b) Investment Manager's financial stability, staff turnover, consistency of style and record of service;
- (c) Investment Manager's current economic outlook and investment strategies;
- (d) Investment Manager's compliance with this Policy where a manager is required to complete and sign a compliance report; and,
- (e) Investment performance of the assets of the Plan in relation to the rate of return expectations outlined in this Policy, on a quarterly basis.

#### **5.04 Dismissal of an Investment Manager**

It is the responsibility of the Committee to monitor the performance of the Investment Manager and to remove any Investment Manager where necessary, in accordance with this Section. Reasons for considering the termination of the services of an Investment Manager include, but are not limited to, the following factors:

- (a) Changes in the overall structure of a Plan's assets such that the Investment Manager's services are no longer required;
- (b) Change in personnel, firm structure or investment philosophy which might adversely affect the potential return and/or risk level of the portfolio;
- (c) Performance results which are below the stated performance benchmarks; and/or
- (d) Failure to adhere to this Policy.

When one of these or any other serious concern arises, the Committee will normally request a special meeting with the Investment Manager to discuss the issue. In any such case, the Committee may recommend corrective action up to and including termination of the services of the Investment Manager. The Committee is not required to obtain Board approval to terminate the services of an Investment Manager.

#### **5.05 Voting Rights**

The Board has delegated voting rights acquired through the investments held by the Plan to the custodian of the securities to be exercised in accordance with the Investment Manager's instructions. The Investment Manager is expected to exercise all voting rights related to investments held by the Plan in the interests of the members of that plan. Upon request, the Investment Manager shall report their voting activities to the Committee.

The Board reserves the right to take-back voting rights of assets held in segregated portfolios for specific situations.

## **5.06 Valuation of Investments Not Regularly Traded**

The following principles will apply for the valuation of investments that are not traded regularly:
